Art Unit: 1712

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Tanaka et al. (U.S. Patent No. 4,251,652), cited in the information disclosure statement of May 20, 2002, and Chiolle et al. (U.S. Patent No. 5,106,892) are the closest prior art. These references teach the formation of polyether ester elastomers formed from dicarboxylic acid, diols, and polyoxytetramethylene glycol. Both of the references favor the use of polyoxytetramethylene glycols with narrow molecular weight distribution. However, neither one of these references teach or suggest the use of polyoxymethylene glycols where the content of high molecular weight molecules if 10% by weight or less. In addition, none of these references teaches the presence of a heteropolyacid in an amount of 10 to 900 ppb by weight. Since these characteristics give rise to improved properties in the resulting polyether ester elastomers claimed by applicant, the claims are allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Light et al. (U.S. Patent No. 3,957,706) and Kodama et al. (U.S. Patent No. 6,570,041) are cited for general interest. Kodama et al., filed on the same day as the instant application, contains claims to the polyoxytetramethylene glycol, component (C) of the instant claims, but does not contain any claims directed to the elastomers claimed by applicant.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey B. Robertson whose telephone number is (571) 272-1092. The examiner can normally be reached on Mon-Fri 7:00-3:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy P Gulakowski can be reached on (571) 272-1302. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
